FJM Security Innovates Combination Padlocks for Lockers with a Key Override and Patented Code Discovery

Seattle, WA, August 17, 2011 - FJM Security Products announces the addition of our new FJM Security Combination Locker Padlock with a master key override and patented code discovery.

The new Combination Padlock with Key Override and Patented Code Discovery allows you to solve some of the most common nagging problems - losing keys, forgetting combinations, cutting off padlocks. In addition to the obvious keyless convenience, this product allows you to not only override the combination with the key but to also discover the code and reset it to a new combination. No other padlock offers this attribute.

SX-575 features:

- Patented code discovery function = no throwing away padlocks
- 10,000 codes
- High Security keyway
- Easy to use and reset
- Manager override key
- Heavy duty, solid metal
- Great for lockers at gyms, country clubs, hospitals, schools, etc.
