Press Release

Combi-Bolt, Combination Bolt Lock, at LegoLand Hotels Offering Security on Hotel Room Treasure Chests

Seattle, WA, April 1, 2013: Combi-Bolt, combination bolt lock, is being featured on the hotel room treasure chests at the new LegoLand Hotels across the USA. The hotel's themed rooms include an in-room treasure hunt with a LEGO prize, as well as an extra LEGO gift inside the treasure chest. Good Morning America did a segment on the new hotel and a brief glimpse of the Combi-Bolt being opened by a child on the treasure chest in a hotel room. To view click [here](#).

The Combi-Bolt locks offer an innovative keyless security solution without the hassle of keys. The recoding screw reduces the risk of accidentally putting the lock into reset mode. This solid, beefy all metal sliding bolt provides the convenience of one locking device with the security of a hasp-and-padlock design. The Combi-Bolt comes with pick resistant dials, solid steel sliding bolt, and one-way security screws (which deliver an extra level of protection). The lock can be installed in both flush and recessed installations. This lock comes in both black and chrome finishes.

- Ability to install in recessed or flushed mounting
- Secure – 10,000 possible combinations
- Pick resistant dials and one-way security screws
- Weather resistant
- All metal construction
- Quick combination changes

FJM Security Products' (www.fjmsecurity.com) mission is to supply resettable combination security devices and other quality hardware products in a manner that exceeds our customers' expectations for value, service and innovation. Our other products include Combi-Cam Cabinet Lock Series, Padlockable Cam Locks, Combi-Ratchet Combination Ratchet Locks, Combi-Bolt Combination Bolt Locks, SOBO High Security Padlocks, ShurLok and KeyGuard Key Storage, HitchSafe, and other keyed cabinet locks.
