Press Release

New 1-3/8" Cylinder Length for the Keyed Cam Lock

Seattle, WA, January 28 2013: FJM Security Products is proud to announce the introduction of a 1-3/8" cylinder length disc tumbler cam lock. These cam locks are an addition to the variety of stock cam locks, push/plunger locks, glass locks, cylinder locks, switch locks, miniature locks and deadbolt locks that have been popular with large and small OEMs.

The #9100 high quality cam locks offer a security solution for most lock needs. It fits a material thickness up to 1-1/8" thickness, and is perfect for overlay applications. These locks come in chrome and black finish. The housing and barrel are made of zinc alloy. This high quality lock is available keyed alike or keyed different, as well as key retaining. A master key version is also available in both finishes. This new cam lock offers more options when securing cabinets, doors, drawers, boxes, etc. The cam lock comes with a 1-1/4" straight cam. Optional accessories (straight and offset cams, dust cover, and finger pull) are also available.

- Retrofits any standard cam lock
- Keyed alike or keyed different
- Master key available
- Key retaining or non-key retaining
- Chrome and black finishes
