## New Lever Add-On for the 7700-Max Combi-Cam

### The popular [7700-Max](#) now has an optional lever knob

Seattle, WA, March 12, 2020: Now available is a lever that can be added/attached to the current knob to make it easier for those challenged with turning knobs to open the lock.

#### Easy to Use Lever

The optional lever accessory simply attaches to the current knob of the 7700-Max with an allen wrench and those with difficulty grasping the knob can easily open the lock.

The 7700-Max is the newest member of the Combi-Cam family, offering a flush installation, 10,000 combinations and a manage key override with code discovery. The lock offers two modes with a flip of a switch: static code and then locker mode (each person that comes up to it automatically can use their own code to lock and unlock)

FJM Security Products' ([www.fjmsecurity.com](http://www.fjmsecurity.com)) mission is to supply resettable combination security devices and other quality hardware products in a manner that exceeds our customers' expectations for value, service and innovation. Our other products include Combi-Cam Cabinet Lock Series, Padlockable Cam Locks, CombiRatchet Combination Ratchet Locks, Combi-Bolt Combination Bolt Locks, SOBO High Security Padlocks, ShurLok and KeyGuard Key Storage, HitchSafe, and other keyed cabinet locks. FJM Security Products, a division of Frank J. Martin, has been in business since 1957. Check out [www.fjmsecurity.com/catalog](http://www.fjmsecurity.com/catalog) for our new online product catalog.
